

Ruth Cobos. graduated in 1997 from the Universidad Autónoma de Madrid in computer science engineering. She is currently working on her PhD in computer science and is an Associate Lecturer in computer science and artificial intelligence at the School of Computer Science and Engineering of the Universidad Autónoma de Madrid.

Her main research interests are in the area of knowledge management systems and web-based groupware systems aimed at education and learning. She is currently working on the KnowCat system, which is a web-based groupware system for sharing and structuring knowledge in a collaborative, distributed and non-supervised way.
