

Ted Hanss is the Director of Applications Development for Internet2. He coordinates activities aimed at building and deploying the next generation of network-based applications in support of research and education. Ted is on loan from the University of Michigan where he served for several years as a Senior Manager in the University of Michigan's Information Technology Division. Among other responsibilities, he was Director of the Center for Information Technology Integration, a computer science research and development lab focusing on distributed systems. Ted has a B.S. in biology from Boston College and an MBA from the University of Michigan.
